## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 3-12, 19, 20, and 23-35 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Bellare, in Forward Integrity For Secure Audit Logs, discloses a method of generating a key with forward security (page 6 paragraph beginning "how") including, receiving a location value that identifies a location of the segment within the key stream (epoch number, pages 6-7), generating an updated key corresponding to the identified segment ("i" in page 6) with forward security (page 6 paragraph beginning "how"), but without key management. Bellare, however, does not disclose the specific limitation of creating and storing an ordered plurality of data elements, wherein each of the data elements is identifiable by a node value that is associated with a unique leaf node or intermediate node in the tree, and wherein each of the data elements stores a keystream segment. It would not have been obvious for one of ordinary skill in the art to add this step to Bellare.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
